(A) About Matching Offline Tool

Matching Offline Tool is an offline tool to view Form GSTR-2B and match the auto-drafted details in the said form with the purchase register.

The Taxpayer needs to install Matching Tool from the GST Portal, and then add profile to match Form GSTR-2B details with the purchase register details. The Form GSTR-2B JSON files are downloaded from the GST Portal and then viewed and opened in the Matching tool to match details.

The details from both the documents are matched based on some defined parameters. The taxpayer can filter and sort matching results using features provided in the tool. The tool enables the taxpayer to download the matching results in a csv format.

The key features of Matching Offline Tool is that the details can be matched offline with no connection to Internet.

(B) FAQs > Download and Install Matching Offline Tool

B.1. Download Matching Offline Tool

1. From where can I download and use the Matching Offline Tool in my system?

To download and open the Matching Tool in your system from the GST Portal, perform following steps:

1. Access the GST Portal: www.gst.gov.in.
2. Go to **Downloads > Offline Tools > Matching Offline Tool** option and click on it.
3. Select **Download**.
4. Click **Proceed**.
5. Unzip the downloaded Zip file which contain **Matching Offline Tool.exe**.
6. Open the **Matching Offline Tool.exe** by double clicking on it.
7. Select the folder where you intend to install the **Matching Offline Tool**.
8. Click **Next**.
9. Click **Install**.
10. Click **Finish**.
11. Open the **Matching Offline Tool** by double clicking on it.

Note: Downloading the Matching Offline Tool is a one-time activity. However, the Tool may get updated in future. So, always use the latest version available on the GST Portal.

2. Do I need to login to GST Portal to download the Matching Offline Tool?

No, you can download the Matching Offline Tool under 'Downloads' section without logging in to the GST Portal.

3. Do I need special access to download the Matching Offline Tool?

Yes, you require admin access on your machine to download the Matching Offline Tool.

4. What are the basic system requirements/configurations required to use Matching Offline Tool?

The offline functions work best on Windows 7 and above and MS EXCEL 2007 and above.

5. Is Matching Offline Tool mobile compatible?

As of now, Matching Offline Tool cannot be used on mobile. It can only be used on desktop/laptops.

6. What does downloaded zip folder for Matching Offline Tool contain?

The Zip folder downloaded from the GST portal consists of the following:

- Installation file for the offline tool .exe format (Set up file)
- 'Read me' explaining in detail the pre-requisites with respect to system requirements and steps for installation of the offline tool
- Offline tool taxpayer manual
- Change history text file
- Purchase register template

7. Does the Matching Offline Tool contain any Help for each page?

Once you open the tool, you will notice detailed instructions (Contextual to that page) to use the tool, using HELP link on the top-right corner of the tool at each page.

B.2. Manage Profile

8. Can I access Matching Offline tool without creating profile in matching tool?

No, you cannot access Matching Offline tool without creating a profile in it. Creating a profile means adding your GSTIN related details as profile in the tool to use it. In order to match Form GSTR-2B details with the Purchase Register, it is necessary that you have added your profile in the Matching tool.

Note: The tool enables you to create more than one profile. You can add different GSTINs to create different profiles in the tool.

9. How can I add my profile in Matching Offline Tool?

To add your profile in Matching Offline Tool, navigate to **Manage Profile** at landing page of Matching Offline Tool > **Add Profile**.

10. Can I add multiple profiles in Matching Offline Tool?

Yes, you can add multiple profiles in Matching Offline Tool. However, profile for each GSTIN must be unique.

11. Why would I need to add multiple profile in the Matching Offline Tool?

You can add multiple profiles in the tool for different GSTINs.

To add another profile (Different GSTIN), then you can click on 'Plus' symbol to add another profile. Click on '**Save**' option to save the records and saved records can be viewed/checked in 'Modify profile page'.

12. How can I edit the previously saved profile in Matching Offline Tool?

To edit the previously saved profile in Matching Offline Tool, navigate to **Manage Profile** at landing page of Matching Offline Tool > **Modify Profile**.

13. Can I directly open my profile by entering details on the landing page, without adding my profile in the Matching Offline Tool?

No, in order to open your profile in the Matching Offline Tool, you must first create your profile using the Add Profile option.

14. Can I remove multiple records from the Matching Offline Tool?

Yes, you can remove multiple records from the Matching Offline Tool using the Delete button available on the Modify Profile page.

(C) FAQs > View Form GSTR-2B Files in Matching Tool

C.1. Download Form GSTR-2B JSON files from GST Portal

15. Do I need to login to GST Portal to download Form GSTR-2B JSON file?

Yes, you must login into the GST Portal to download GSTR-2B JSON file.

16. From where can I download the Form GSTR-2B JSON file?

You can download the Form GSTR-2B JSON file from **Services → Returns → Returns Dashboard → Select the FY and Return period → GSTR-2B tile (Download) → Download JSON**

17. Where can I find the downloaded JSON files from the GST Portal?

The JSON files downloaded from the GST Portal gets saved in the **Downloads** folder on your machine.

C.2. Open JSON Files in the Matching Tool

18. Do I need to open the Matching Offline Tool to open the JSON files downloaded from the GST Portal?

Yes, you need to click the Matching Offline Tool icon on your system to access the tool and enter the details on the Home screen, such as GSTIN, Financial year, and Tax Period, and then click **Proceed**.

19. Can I directly View and Match files in the Matching Offline Tool?

No, you must first open the downloaded files in the Matching Offline Tool, and then only would you be able to match them with the purchase register records.

20. How would I get to know that the JSON files are imported in the Matching Offline Tool?

A success message will be displayed on the screen on successful import. The system will display an error message in case the JSON files are not imported.

(D) FAQs > Import Purchase Register in the Matching Tool

21. What is a Purchase Register template?

A Purchase Register template provided with the tool can be used by the Taxpayers to capture the purchases made by them. The details added in the template by the Taxpayer must be in the format provided in it. The details of purchases captured in the Purchase Register template can then be compared with the Form GSTR-2B details (downloaded from the GST Portal) using the Matching tool.

22. Using which option in offline tool can I import the Purchase Register in the Matching Tool?

After the Form GSTR-2B details are downloaded, the Purchase Register details maintained in the template can be imported in the Matching Tool using the IMPORT EXCEL/CSV option under Import Purchase Register section, for matching.

23. Can I maintain my Purchase Register in a format other than provided on GST portal?

Purchase register maintained in a format other than the template provided as part of Matching offline tool will not get imported into the tool. Hence, it is important that you use the same format as provided on the GST portal to add data and import to the tool otherwise an error will be generated by the system and you will not be able to proceed further to match GSTR-2B records with the Purchase Register.

24. What actions can I take once the Purchase Register is imported in the Offline Tool?

Once the Purchase Register is imported in the Offline Tool, you can:

- View the details as imported from the Purchase Register
- Remove all the entries imported from the Purchase Register
- Compare/Match the entries of imported Purchase Register with the entries of Form GSTR-2B

(E) FAQs > Matching Results

25. What are the steps involved in matching GSTR-2B details with Purchase Register?

The following steps are involved in matching Form GSTR-2B details with Purchase Register:

1. Download and Install the "GST Matching Offline Tool".
2. Create Profile > Enter GSTIN, Select Financial Year, Tax Period etc.
3. Download Form GSTR-2B JSON file from GST Portal.
4. Open GSTR-2B JSON file in the Matching tool.
5. Import Purchase Register in the Matching tool, in case of errors, download the Error File, fix the errors and download the Purchase Register again.
6. Match GSTR-2B and Purchase Register details and download in CSV (excel format)
7. Refine matching results, if required set tolerance for tax amount and apply approximation on document number.

NOTE: The [Manual of Matching Offline Tool](#) section explains the steps mentioned above in detail.

26. What are different categories of matching results?

There are six categories of matching results available in the tool, as explained in table below:

Categories of matching results	Matching Parameters
<p>Exact match (All 7 parameters match)</p>	<ol style="list-style-type: none"> 1. GSTIN 2. Document type 3. Document number 4. Document date 5. Total taxable value 6. Total tax amount <Sum of IGST+CGST+SGST+CESS> 7. Tax amount head wise
<p>Partial match (6 out of 7 parameters match)</p>	<p>Partial Match is where GSTIN and Document type match and there is mismatch in only one parameter among the following listed parameters in Form GSTR-2B and PR:</p> <ol style="list-style-type: none"> 1. Document number 2. Document date 3. Total taxable value 4. Total tax amount <Sum of IGST+CGST+SGST+CESS> 5. Tax amount head wise
<p>Probable match (6 out of 7 parameters match)</p>	<p>Probable Match, if there is mismatch in one parameter among the parameters listed at Sr. no. 1 & 2. However, parameters 3 to 7 are matching in GSTR -2B and PR:</p> <ol style="list-style-type: none"> 1. GSTIN 2. Document type 3. Document number 4. Document date 5. Total taxable value 6. Total tax amount <Sum of IGST+CGST+SGST+CESS> 7. Tax amount head wise
<p>Unmatched</p>	<p>A record is said to be Unmatched, with a score of 4/7 or 5/7, if the following parameters match:</p> <ul style="list-style-type: none"> • GSTIN • Document type • Document number <Including approximation logic, if any> • Document date <p>BUT there is a mismatch on one or more of following parameters, beyond the tolerance limit set:</p> <ul style="list-style-type: none"> • Total taxable value • Total tax amount <Sum of IGST+CGST+SGST+CESS> • Tax amount head wise

Categories of matching results	Matching Parameters
	<ul style="list-style-type: none"> • Integrated tax • Central tax • State/UT tax • CESS
In GSTR-2B not in PR	All documents that exist in Form GSTR-2B that could not be found in PR, (i.e. not classified in any of the Categories of matching results above), will be classified in this category.
In PR not in GSTR-2B	All documents that exist in PR that could not be found in Form GSTR-2B, (i.e. not classified in any of the Categories of matching results above), will be classified in this category.

27. What is the function of the Refine Matching Result option on the Matching Tool?

The REFINE MATCHING RESULT option enables you to refine the matching results by altering the tolerance value for Integrated, Central, State/UT tax or Cess.

You may also apply approximation logic on the document number to match the details of Form GSTR-2B with PR.

28. What will be the impact of applying approximation logic on the matching result?

When you check the option of applying Approximation logic on document number, the system applies approximation logic and the matching results get updated. The details may move among buckets that are: Exact, Partial and Probable Match.

To apply approximation on document number, enable the checkbox for 'Yes' and matching would be done by applying approximation on document number only. Approximation logic will check the document number as if:

- Special characters are not present ('/' or '- '); or
- Prefix or suffix as 'zero' are not present.

29. How much is the limit of tolerance that I can choose to refine matching results?

The Matching Tool enables you to select the tolerance value from 0 to 10 to refine matching results.

30. Is the tolerance value applied on the consolidate tax amount?

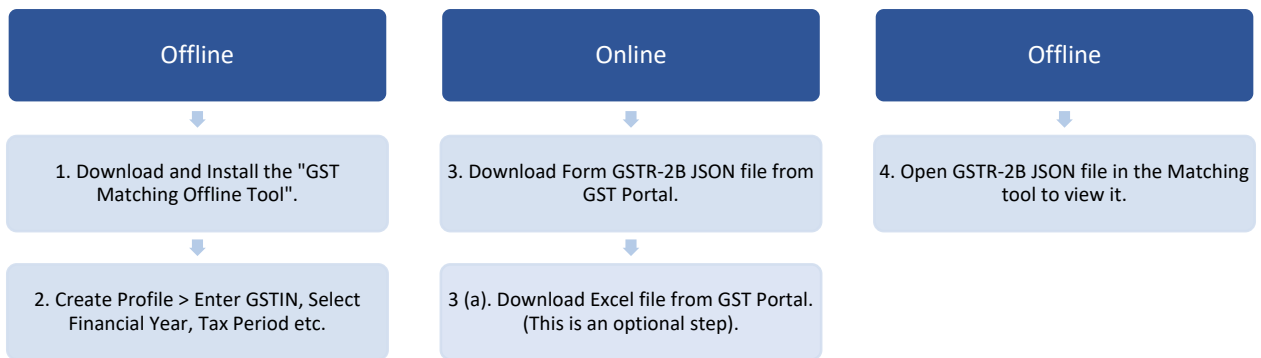

No, the tolerance value is applied on the individual tax amount such as, Integrated, Central, State/UT tax or Cess.

(F) Manual of Matching Offline Tool

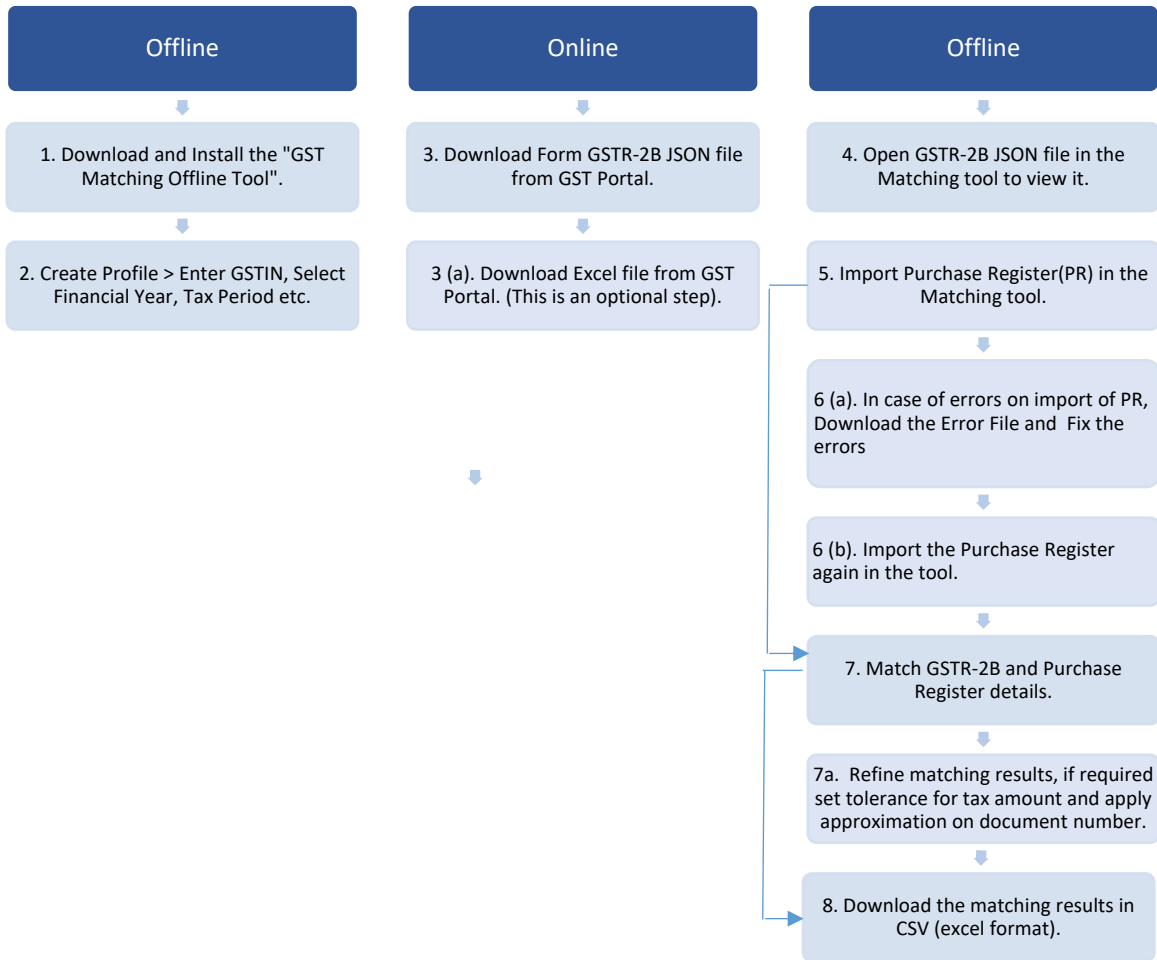

The Matching Offline tool enables the Taxpayers to view the GSTR-2B and match the auto-drafted details in GSTR-2B with the Purchase Register and create matching reports. To use the Matching tool to match GSTR-2B with Purchase Register, perform following steps:

1. [Download and Install the "GST Matching Offline Tool".](#)
2. [Create Profile.](#)
3. [Download Form GSTR-2B JSON file from GST Portal.](#)
4. [Open GSTR-2B JSON file in the Matching tool.](#)
5. [Import Purchase Register in the Matching tool, in case of errors, download the Error File, fix the errors and download the Purchase Register again.](#)
6. [Match GSTR-2B and Purchase Register details and download in CSV \(excel format\)](#)
7. [Refine matching results, if required set tolerance for tax amount and apply approximation on document number.](#)

F.1. Process Flow of Viewing Form GSTR-2B details in Matching Tool

F.2. Process Flow of Matching Form GSTR-2B with Purchase Register

F.3. Download and Install Matching Offline Tool

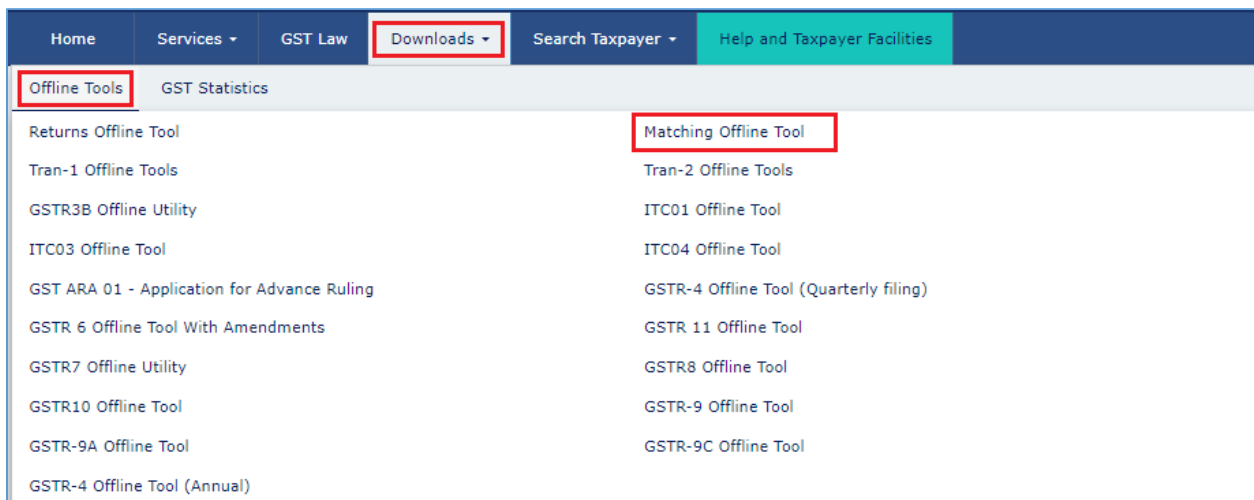

The Matching Offline tool enables the Taxpayer to view Form GSTR-2B (Downloaded from GST Portal as a JSON file) and match the auto-drafted details of GSTR-2B with Purchase Register (maintained in the template provided) and create matching report.

To download and install the Matching Offline Tool, perform following steps:

Downloading the Matching Offline Tool is a one-time activity. However, the tool may get updated in future. Hence, it is advisable to always use the latest version available on the GST Portal.

1. Access the www.gst.gov.in URL. The GST Home page is displayed. Click the **Downloads > Offline Tools > Matching Offline Tool** option.

You can download the Matching Offline Tool from the Portal without logging in to the GST Portal (using the Downloads option).

2. **The Matching Tool** page is displayed. Click the **Download** hyperlink.

Make sure you carefully read the important message and System Requirement details displayed on the page.

Home > Downloads > Return

Matching Offline Tool v1.0

The Matching Offline Tool can be used to:

1. View GSTR-2B (Auto-drafted Input tax credit (ITC) statement)
2. Match GSTR-2B with Purchase register

To install the tool, please download, extract the zip file and run the [Download](#)

Your downloaded (Matching_Offline_Tool) zip file contains:

- GSTR2B_Matching_Tool_v1.0.exe (Application)
- Purchase Register Excel Template
- Readme
- User Manual
- Change History

Important!

- Before you extract and run the downloaded file, ensure that the file is not corrupted. How do I know that my file is not corrupt? Click [here](#) to know more.
- Go through the **Readme** document before you begin installation.
- Double-click on **GSTR2B_Matching_Tool_v1.0.exe** to install the offline tool.

What's new v1.0(Released on 13/09/2020)

- Downloading the auto-drafted input tax credit (ITC) statement - GSTR-2B from the dashboard at GST Portal and opening the same in the Offline Tool for viewing.
- Importing the purchase register in the Offline Tool for matching with GSTR-2B downloaded from the GST Portal. Taxpayers will have to use Excel/csv template provided with the tool to prepare their purchase register and import the same in this Offline Tool.
- Comparing the auto-drafted ITC statement - GSTR-2B, downloaded from the portal and the purchase register using the 'Matching' tab provided in the tool to identify documents which are fully matched, partially matched or not matched.

System Requirement

To use the tool efficiently, ensure that you have the following installed on your system:

1. Operating system → Windows 7 or above. The tool does not work on Linux and Mac.
2. Browser: You need one of these browsers installed on your system:
 - o Internet Explorer 10+
 - o Google Chrome 7+
 - o Firefox 45+
3. Microsoft Excel 2007 & above
4. Alternatively, for any below versions, the tool will open in a default browser.
5. Before installation of Offline tool, ensure that you have 200 MB of free disk space in your local machine

3. An Information pop-up opens to confirm the download. Click **PROCEED**.

F.5. View and Download Form GSTR-2B JSON Files from GST Portal

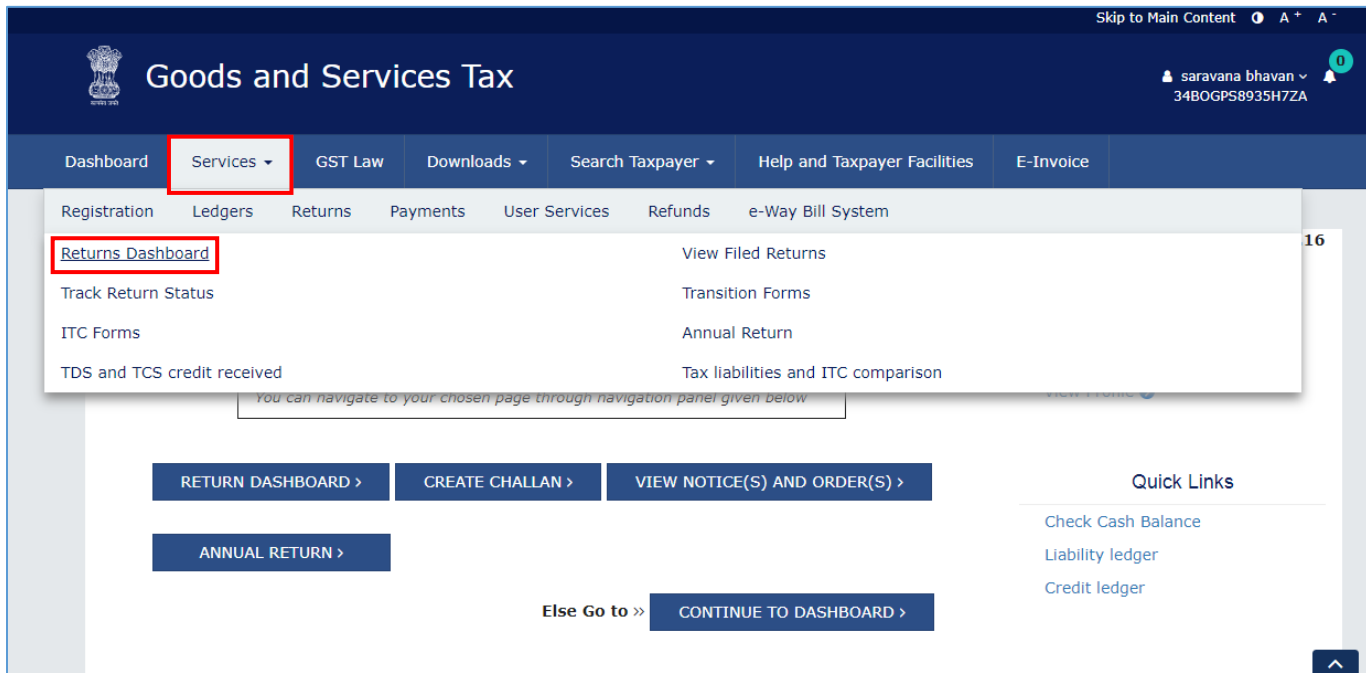

To view Form GSTR-2B in the Matching Tool, perform following steps:

1. To download Form GSTR-2B JSON files from GST portal, access the GST portal using the URL: <https://www.gst.gov.in/>. The GST Home page is displayed. Log in to the GST portal using valid credentials.

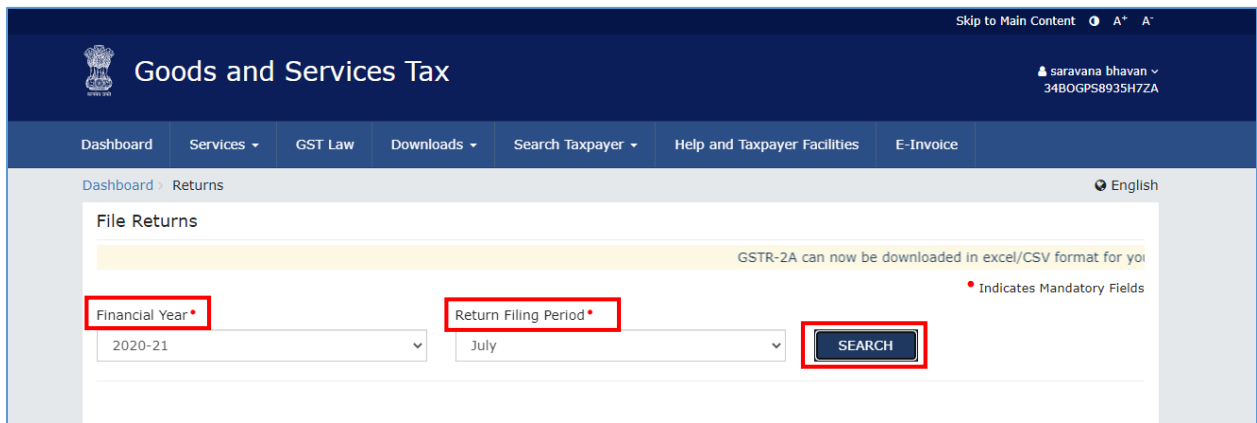

The screenshot shows the GST Portal login interface. At the top, there is a navigation bar with the GSTN logo and the text 'Goods and Services Tax'. Below this is a menu with options: Home, Services, GST Law, Downloads, Search Taxpayer, Help and Taxpayer Facilities, and E-Invoice. The main content area is titled 'Login' and contains two input fields: 'Username' and 'Password', both marked with a red asterisk to indicate they are mandatory. Below the input fields is a 'LOGIN' button. There are also links for 'Forgot Username' and 'Forgot Password'. A note at the bottom states: 'First time login: If you are logging in for the first time, click here to log in.'

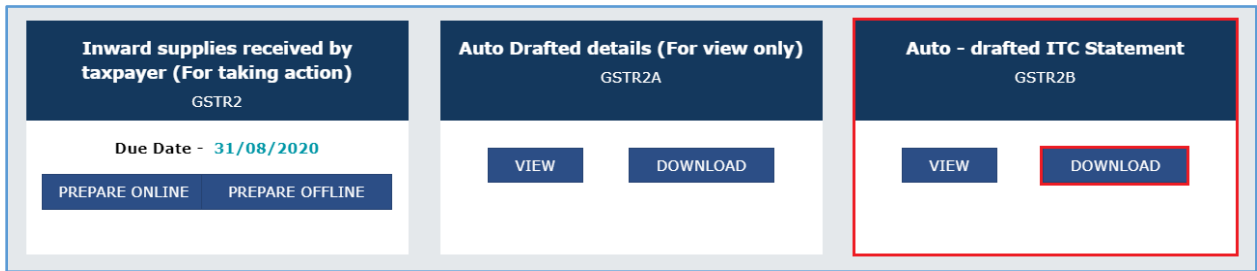

2. Go to **Services > Returns > Returns Dashboard**.

3. Select the **Financial Year** and **Return Filing Period** from the lists displayed and click **SEARCH**. Various returns tiles are displayed.

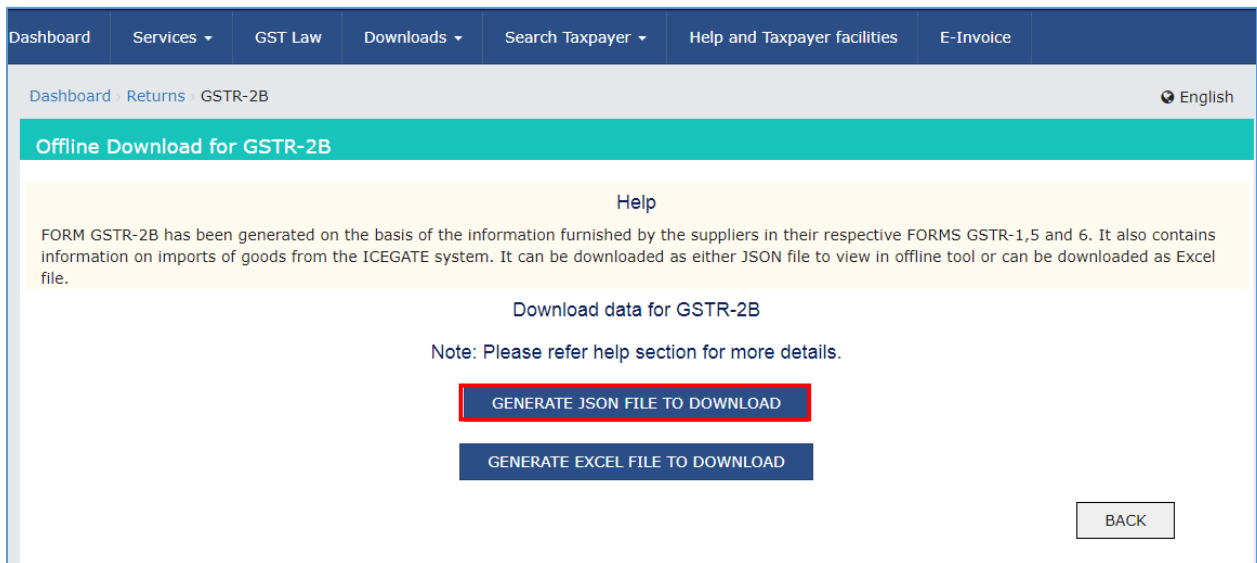

4. To download the Form GSTR-2B JSON file, click the **Download** button on the Auto – drafted ITC Statement – GSTR -2B tile.

The screenshot shows a dashboard with three main sections:

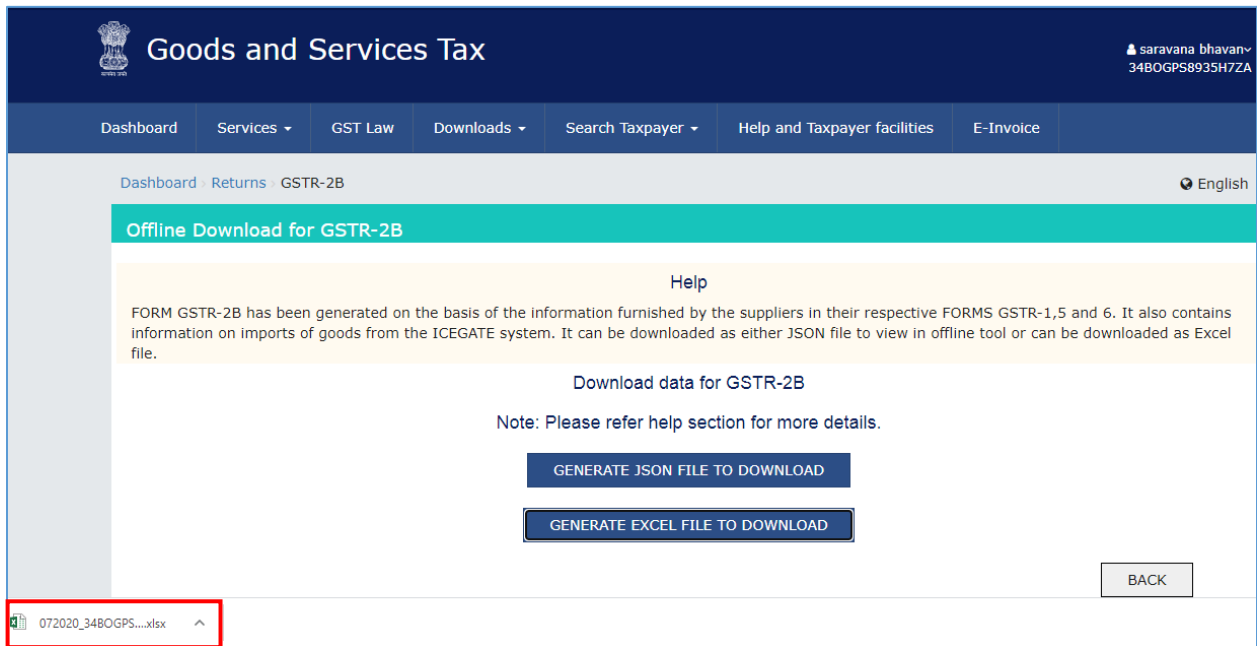

- Inward supplies received by taxpayer (For taking action) GSTR2**: Includes a due date of 31/08/2020 and buttons for 'PREPARE ONLINE' and 'PREPARE OFFLINE'.
- Auto Drafted details (For view only) GSTR2A**: Includes 'VIEW' and 'DOWNLOAD' buttons.
- Auto - drafted ITC Statement GSTR2B**: This section is highlighted with a red border and contains 'VIEW' and 'DOWNLOAD' buttons, with the 'DOWNLOAD' button also highlighted by a red box.

5. The Offline Download for Form GSTR-2B page is displayed

The screenshot displays the 'Offline Download for GSTR-2B' page. At the top, there is a navigation menu with items like 'Dashboard', 'Services', 'GST Law', 'Downloads', 'Search Taxpayer', 'Help and Taxpayer facilities', and 'E-Invoice'. Below the menu, the breadcrumb trail shows 'Dashboard > Returns > GSTR-2B'. The main content area has a teal header 'Offline Download for GSTR-2B' and a yellow help box that reads: 'FORM GSTR-2B has been generated on the basis of the information furnished by the suppliers in their respective FORMS GSTR-1,5 and 6. It also contains information on imports of goods from the ICEGATE system. It can be downloaded as either JSON file to view in offline tool or can be downloaded as Excel file.' Below the help box, there is a section titled 'Download data for GSTR-2B' with a note: 'Note: Please refer help section for more details.' Two buttons are present: 'GENERATE JSON FILE TO DOWNLOAD' (highlighted with a red box) and 'GENERATE EXCEL FILE TO DOWNLOAD'. A 'BACK' button is located in the bottom right corner.

6. Click **GENERATE JSON FILE TO DOWNLOAD** option. The JSON file is generated and downloaded on your system.

Auto-drafted ITC statement (GSTR-2B)

Open Downloaded JSON File

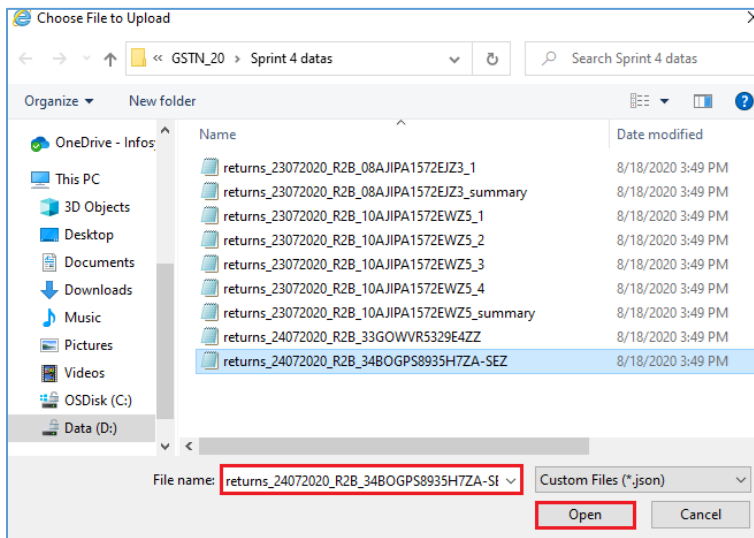

View and Match

BACK

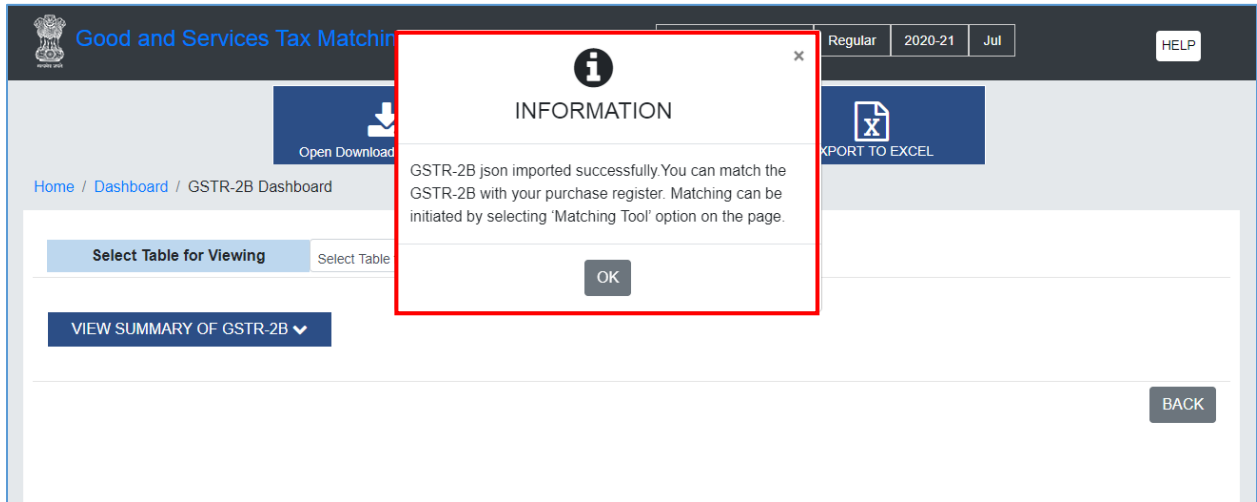

3. To open the downloaded JSON file, click **Open Downloaded JSON File** tab.

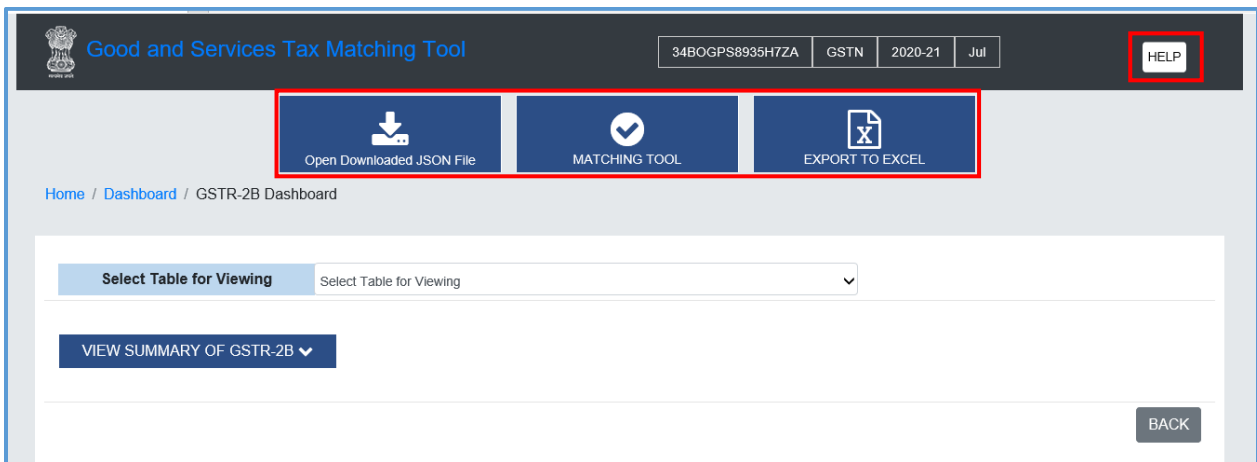

4. Select the JSON file and click **Open**.

5. On successful import of JSON file, a success message is displayed on the screen. Click **OK** to close the **INFORMATION** window and go back to the **GSTR-2B Dashboard** page.

6. The GSTR-2B Dashboard is displayed.

Note:

- **Open downloaded JSON file:** - Click on the 'Open Downloaded JSON File' button to open GSTR-2B file downloaded from GST Portal and saved on local system. Upon successful processing of file, the details would be populated in respective tables for viewing and/or matching of details.
- **MATCHING TOOL:** You can use this option to navigate to matching tool (Match Auto-drafted ITC statement GSTR-2B with your purchase register) in order to do matching with the purchase register.
- **EXPORT TO EXCEL:** You can use this option to export the details as available in matching offline tool to an excel file. On click of this button, matching offline tool generates the details in an Excel format.

Goods and Services Tax - GSTR-2B			
Financial Year	2020-21		
Tax Period	Jul		
GSTIN	34BOGPS8935H7ZA		
Trade/Legal name	GSTN		
Date of generation	27/08/2020

F.7. Import Purchase Register in the Matching Tool

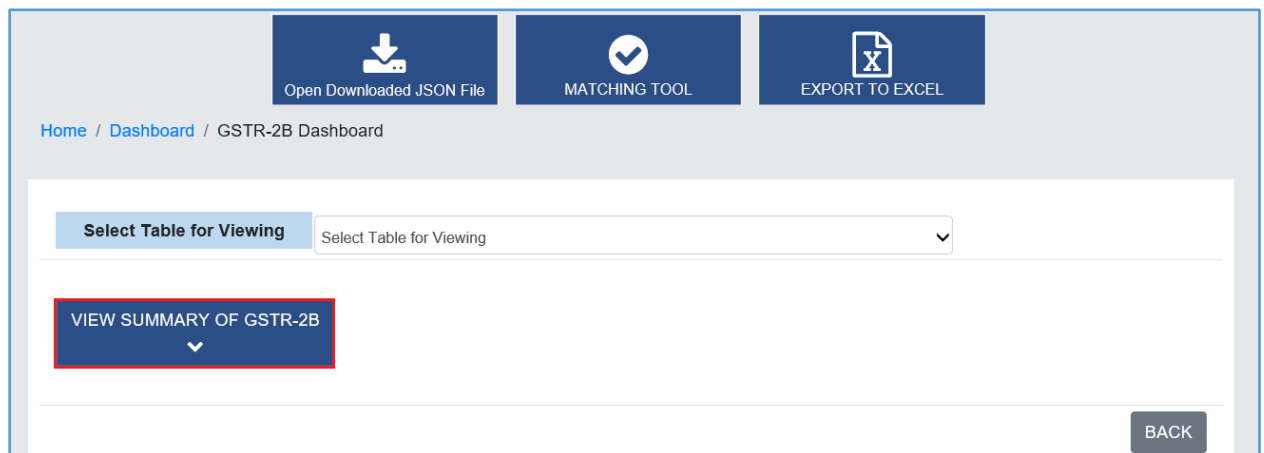

To match downloaded Form GSTR-2B details with the Purchase Register maintained by you, you need to first import the purchase register in the Matching Tool. Purchase Register must be prepared in the format provided with the matching tool, downloaded from the GST portal.

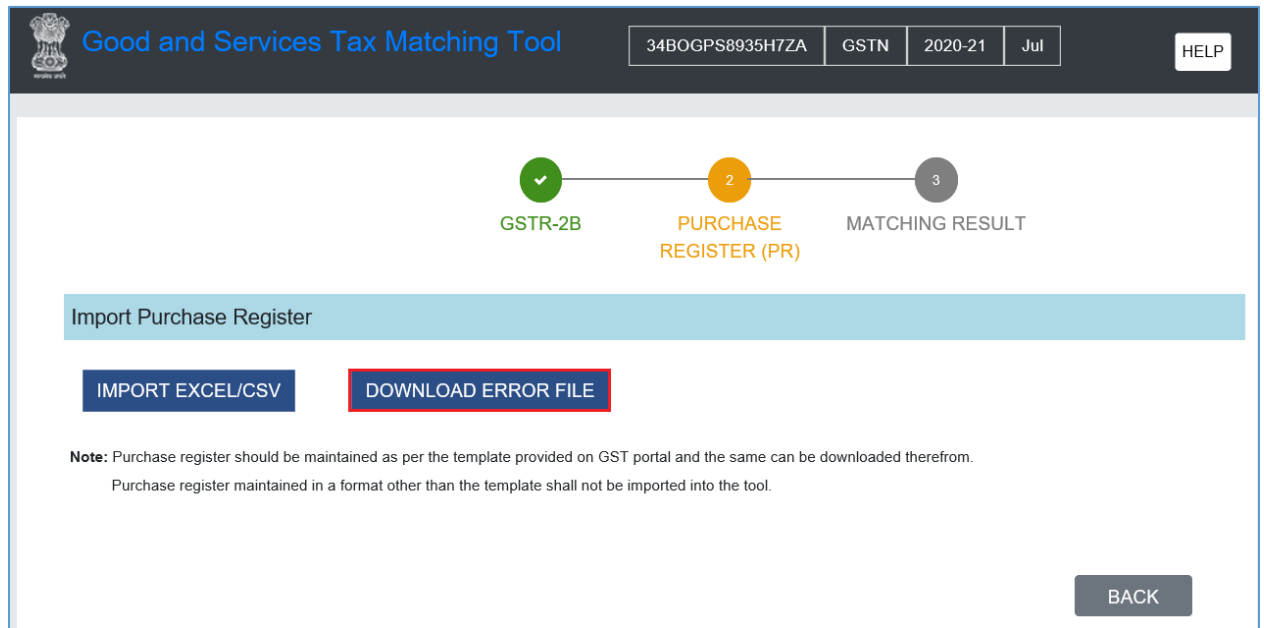

1. To import the purchase register, click **IMPORT EXCEL/CSV** button.

Note:

- a. In case, there appears some error in downloading Purchase Register, an error file is generated, which can be downloaded by clicking the **DOWNLOAD ERROR FILE**.
Note: The **DOWNLOAD ERROR FILE** button will be available on the screen till the time you have not uploaded the updated JSON/ Excel file after fixing the error(s).

F.8.1. Summary of GSTR-2B and Purchase Register (PR)

The **Summary of GSTR-2B and Purchase Register (PR)** section displays the consolidated summary of the matching result, bifurcated into different buckets. The bifurcation is done based on the matching done by the tool, on records available across tables in Form GSTR-2B, with purchase register, imported into the matching tool.

Note: **Summary of GSTR-2B and Purchase Register (PR)** section displays details under the following columns:

- **Matching results:** This column displays the matching results categorized in the following:
 - **Exact Match**
 - **Partial Match**
 - **Probable Match**
 - **Mismatch**
 - **Unmatched (2 or more parameters not match)**
 - **In GSTR-2B not in PR**
 - **In PR not in GSTR-2B**
- **No. of documents:** This column displays the total number of documents that matched and mismatched in **Form GSTR-2B** and **Purchase Register**.
- **Total taxable value:** This column displays the total value on which the tax is applicable.
- **Total tax amount:** This column displays the total tax amount applied.

F.8.2. Details of Matching Results

Below the summary, details of the matching result are displayed as per the matches made, basis the profile of the taxpayer:

- **Non-SEZ Taxpayer:**
 - Supplies from registered person (B2B)
 - Deemed exports (DE)
- **SEZ Taxpayer:**
 - SEZ supplies with payment (SEZWP)
 - SEZ supplies without payment (SEZWOP)

Note: You can download the details of matching results in CSV/ Excel format using **Export to CSV** option.

Details of matching result				
Supplies from registered persons (B2B)				Export to CSV
Matching result	Match type	No. of documents	Taxable value (₹)	Total tax amount (₹)
Match	M1 Exact match	1	4,500.00	570.00

	M4(3) In PR not in GSTR-2B	3	16,705.00	3,764.50
	Sub-total	13	47,305.00	10,907.50
TOTAL		14	44,305.00	10,582.50

Note: **Details of Matching Results** section displays details under the following columns:

Matching Result	Match Type	No. of documents	Taxable value	Total Tax amount
-----------------	------------	------------------	---------------	------------------

<p>Match: shows matching of details as available in GSTR-2B and Purchase Register</p>	<p>Exact Match: (All 7 parameters match): where all the parameters match in records of both Form GSTR-2B and purchase register</p>	<p>Displays the number of documents matched or mismatched.</p>	<p>Displays the taxable value on match or mismatch of respective tables.</p>	<p>Displays the total tax calculated on the basis of match and mismatch results</p>
	<p>Partial Match: Records that have matched partially</p>			
	<p>Probable Match: Mismatch in between GSTIN and Document type of details in Form GSTR-2B and purchase register and complete match in all other parameters</p>			
<p>Mismatch: shows mismatch of details as available in GSTR-2B and Purchase Register</p>	<p>Unmatched: Two or more parameters do not match</p>			
	<p>In GSTR-2B but not in PR <Only in GSTR-2B summary>: The records that are present in GSTR-2B but not available in the purchase register.</p>			
	<p>In PR but not in GSTR-2B <Only in PR summary>: The records that are present in the purchase register but not available in GSTR-2B.</p>			

Note: Depending on the match parameters the nomenclature of match and mismatch result is displayed in the Matching tool. The nomenclature M1-M4 indicates the following:

- M1(1) Exact match
- M1(2) Match with tolerance on tax amount(s)
- M1(3) Match with approximation on document number
- M2(1) Partial match
- M2(2) Partial match with tolerance on tax amount(s)
- M2(3) Partial match with approximation on document number

- M3(1) Probable match
- M3(2) Probable match with tolerance on tax amount(s)
- M3(3) Probable match with approximation on document number
- M4(1) Unmatched
- M4(2) In GSTR-2B not in PR
- M4(3) In PR not in GSTR-2B

Note: To view matching categories and parameters, please refer [FAQ](#) of Matching Results section.

4. To view the details of matching results, click the text that appears in blue, such as **M1 Exact Match**.

Note: You can also click any of the blue text link to open the match and mismatch result details.

Deemed Exports (DE)

Note:

- **Select Table:** You can view different tables on which matching has been done, by selecting the relevant table.
- **Matching Result:** You can view matching result based on match and/or mismatch category.
- **Match Type:** You can view matching result based on different bucket like Exact match, Partial match etc.
- **Search:** You can use this option to search, for a text/value, amount, the details of the respective table. Only the matching/relevant record will be shown as output.
- **Records Per Page:** You can use this option to select number of records that can be displayed on one screen.
- **Select Columns to Display/Hide:** You can use this option to select the columns to be displayed/hidden.
- **Export to CSV:** The detailed matching result can be downloaded in CSV format in the following three ways:
 - **Details of Matching result:** To download the details of the matching result in CSV format.
 - **Details of purchase register:** To download the details of records 'In PR not in GSTR-2B' and 'In GSTR-2B not in PR', so the same can be used in the next periods in purchase register.

[Go Back to the Main Menu](#)

F.8.3. Refine Matching Results

The **REFINE MATCHING RESULT** option enables you to refine the matching results by altering the tolerance value for Integrated tax, Central tax, State/UT tax or Cess.

1. To refine matching results, click the **REFINE MATCHING RESULTS** button on the match result page.

2. The **REFINE MATCHING RESULT** window is displayed. Click **select** to set tolerance value for individual tax amount.

Note: The tolerance will be available as a drop down from 0 to 10. These values will be applied as +/- from the base value of individual tax amount(s), in which values are present. The total tax amount will be sum of individual tax amount(s).

For Example: A document has:

- CGST – INR 50
- SGST – INR 50
- Cess – INR 20

If the taxpayer has applied tolerance of INR 1, the INR 1 will be added/deducted under each such head. The matching results will be refined as matched if:

- CGST is in range of INR 49-51
- SGST is in range of INR 49-51
- Cess is in range of INR 19-21
- The total tax column will be the sum of individual tax heads, so the same will be in range of INR 117-123.

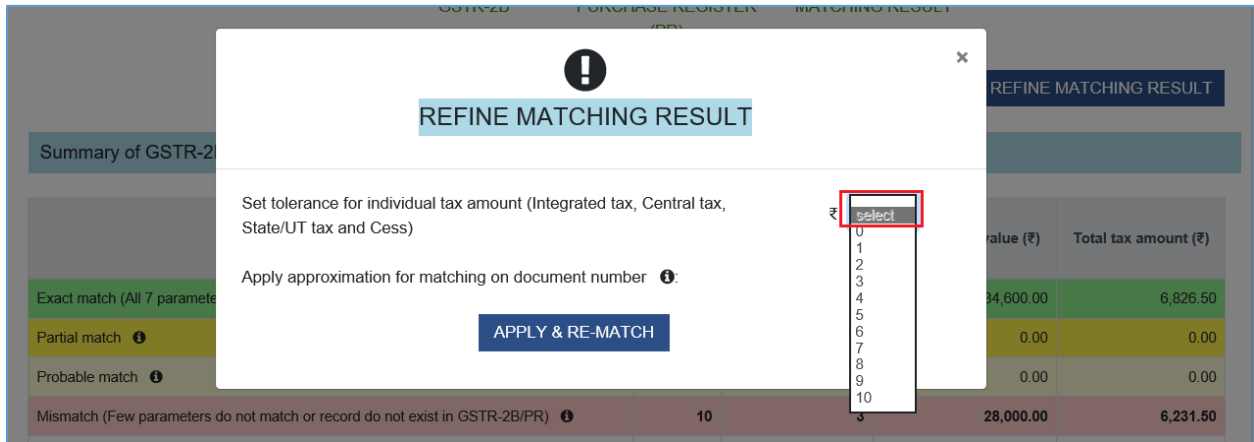

For Example: A document has:

- IGST – INR 50
- Cess – INR 20

If the taxpayer has applied tolerance of INR 1, the INR 1 will be added/deducted under each such head. The matching results will be refined as matched if:

- IGST is in range of INR 49-51
- Cess is in range of INR 19-21

- The total tax column will be the sum of individual tax heads, so the same will be in range of INR 68-72.

3. Select the **Yes** option to apply approximation for matching on document number, and then click the **APPLY & RE-MATCH** button to display the results.

Note: When you check the option of applying Approximation logic on document number, the system applies approximation logic and the matching results get updated. The details may move among buckets that are: Exact, Partial and Probable Match.

To apply approximation on document number, enable the checkbox for 'Yes' and matching would be done by applying approximation on document number only. Approximation logic will check the document number as if:

- Special characters are not present ('/' or '- '); or
- Prefix or suffix as 'zero' are not present.

Note: Tolerance and approximation can be applied simultaneously, or can be applied individually as well.

×

REFINE MATCHING RESULT

Set tolerance for individual tax amount (Integrated tax, Central tax, State/UT tax and Cess) ₹

Apply approximation for matching on document number : Yes

APPLY & RE-MATCH

4. The matching results with tolerance and approximation selected are displayed in the summary and details section.
