

GeM Availability Report & Past Transaction Summary

“GeM Availability Report and Past Transaction Summary” (GeMARPTS) indicates availability status of products or/and services searched on GeM and past transaction history for the matching product categories.

The buyers may preview the categories to identify the categories that match their requirement.

The Past Transaction Summary will be provided, wherever available. GeMARPTS shall be a pre-requisite for arriving at a decision by the competent authority for procurement of required goods and services by floating a bid outside GeM and its unique ID would be required to be furnished on the publishing portal along with the tender proposed to be published.

NOTIFICATIONS

Dear Sir/Ma'am,

- Buyers are hereby notified that as per OM No. [F.6/18/2019-PPD](#) dated 23rd January 2020, the functionality for generating "GeM Availability Report & Past Transaction Summary" is now available at GeM. With effect from 1st July 2020, it is mandatory for buyer to generate this report for procurement outside GeM. To know more on how to generate the GeMARPTS report, please [click here](#).
- *** As per the OM issued by the Department of Expenditure, Ministry of Finance (No.F.6/18/2019.PPD), it is notified that from 01/07/2020, no other payment mode except for GPA and PFMS would be available on GeM for placing new orders. Payments for all orders must be processed through either GPA or PFMS only.

The search engine under “GeM Availability Report” Tab will recommend the matching categories to the Buyers.

Buyers can preview the categories to identify the categories matching their requirements.

Did not find the category I am looking for

ADD MORE

Confirm

1. There are categories available on GeM matching your requirements (as listed here). You can create a bid on GeM with a product closest matching your required specifications and add additional parameters in specifications through Corrigendum using RMS functionality.
2. If you feel that category TP needs updating you can submit category updating request also through RMS.
3. If you do not want to use any of the above option and want to proceed for procurement outside GeM, please suggest the specifications for future procurement.

Please certify by choosing one of the options below.

It is certified that I have thoroughly checked all probable categories suggested by GeM and I am satisfied that the product required is not covered / does not fall in any of the suggested categories and can not be procured under any of these categories even after inclusion of List of Values(LOV) wherever possible in category specifications of suggested categories. It is also certified that the technical specification requirements are such that these can not be covered even by adding specification parameters using ATC in any of the GeM suggested categories.

- I would be uploading the specifications of the required product which may be taken up by GeM for new category creation.
- The required product category is a one time requirement and hence I would not be requesting a new category creation.

Enter the category details in "Request Management" IFrame. You will receive Request ID for the same.

Request Management

Only indispensable conditions that are not covered in and are not in conflict with GeM GTC, Product / Service STC and the ATC library, and which are in compliance with the Govt. orders on Public Procurement and are not restrictive and not against the core principals of transparency and efficiency enshrined in GeM, can be requested through this RMS ATC request. Each such request has to come only after due approval of the Competent Authority in Buyer Organization. A copy of such approval of competent authority has to be uploaded here. Buyer organization shall be solely responsible for the impact of the requested clauses on the bidding process and its outcome. Clauses in respect of which ATC library clause is available will not be allowed through RMS.

Following details will be available in the GeMARPTS report:

- Report ID
- Report Generation Date
- Past Transaction Summary
- Report Validity from generation date: 30 days
- Buyer Name and Organization Name
- Product/Service Details Search by the Buyer
- Category Names suggested by GeM against the searched products/services
- Product Count for the category

To Know....

- Each GeM availability report (GeMARPTS) will have a unique ID and will be valid for 30 days from report generation date
- Buyer will be able to float only one tender on CPPP using one GeMARPTS ID and will be required to furnish a unique and distinct GeMARPTS ID before floating tenders on CPPP
- A new GeMARPTS may be generated for cases where CPPP tender is cancelled or if buyer does not procure all items part of the report in a single CPPP tender.
- The GeMARPTS ID will be validated on CPPP, stored against the floated tender and shared with GeM through reverse feed along with Tender Details and Documents.
- A notification would be visible at Buyer's dashboard to inform that he/she can check the available products/services/categories under the Tab "GeM Availability Report"
- The unique GAR ID can be used in such a case as well though the buyer needs to make a decision based on the Past Transaction Summary provided in the report to procure from GeM or outside
- It is buyer's discretion to buy the available products from GeM or float a single tender for multiple items at any other platform
