PREFACE

The Ministry of Micro, Small and Medium Enterprises has launched the National Manufacturing Competitiveness Programme (NMCP) to improve the competitiveness of the Micro, Small and Medium Enterprises (MSME) sector. The initiatives under the NMCP aim at increasing productivity, upgrading technology and conserving energy in the manufacturing processes, as well as expanding domestic and global market share of Indian MSME products. Under the Programme, 10 components have been conceptualised, namely:-

- Lean Manufacturing Competitiveness Scheme
- Enabling manufacturing sector to be competitive through Quality Management Standards/Quality Technology Tools (QMS/QTT)
- Promotion of ICT (Information & Communication Technology) in MSME sector.
- Technology and Quality Upgradation Support to MSMEs (TEQUP)
- Marketing Assistance and Technology Upgradation Scheme
- Marketing Support/ Assistance to SMEs (Bar Code)
- Design Clinic Scheme for Design Expertise to MSME sector
- Setting up of Mini Tool Rooms
- National campaign for building awareness on Intellectual Property Rights (IPR)
- Support for Entrepreneurial and Managerial Development of SMEs through Incubators

This booklet contains the guidelines for the following two schemes:-

1. 'Marketing Assistance and Technology Upgradation in MSMEs' and
2. 'Financial Assistance on Bar Code'

The main aim is to assist MSMEs in enhancing their competitiveness in national as well as international markets by adopting better packaging technologies, modern marketing strategies and encouraging them to acquire ISO Certification and Bar Codes, so that their products become more acceptable to the consumers.

The success of NMCP depends on the active support and involvement of the State Governments, Industry Associations and other stakeholders such as technical institutions and professionals.

It is hoped that publication of the guidelines in the form of handy booklets will facilitate easier dissemination of information about the objectives of the schemes and the role and procedure envisaged for different stakeholders.

Marketing Assistance and Technology Upgradation In Micro, Small and Medium Enterprises

SCHEME FOR MARKETING ASSISTANCE AND TECHNOLOGY UPGRADATION IN MICRO, SMALL AND MEDIUM ENTERPRISES (MSMEs)

INTRODUCTION

- 1.1 The Micro, Small and Medium Enterprises (MSMEs) in India produce a diverse range of products with the very simple products produced by household enterprises at one end of the spectrum and highly advanced ones at the other end. With globalization and changes in communication technologies, new challenges and opportunities have arisen for MSMEs. The concept and techniques of marketing have also been continuously undergoing a change with the rapid changes in technology and consumer preferences.
- 1.2 Marketing, a strategic tool for business development, is critical for the growth and survival of MSMEs. Due to lack of information, scarcity of resources and unorganized ways of selling / marketing, MSME sector often faces problems in exploring new markets and retaining existing ones. Such asymmetries in information, not aware of the new market where they may sell their products and buyer also having lack of knowledge about the products manufactured by MSMEs result in severe impediments to the growth and survival of MSMEs in a highly competitive environment. MSMEs do not have sufficient resources at their command and, therefore need institutional support for providing these inputs in the area of marketing.
- 1.3 Marketing Assistance and Technology Upgradation Programme is a strategic initiative for adoption of Modern Marketing techniques by MSMEs consistent with the requirement of global market. It involves eight sub-components for which Government of India (GoI) funding assistance will be available.

2.0 MAJOR ACTIVITIES UNDER THE SCHEME

- 2.1 The objectives of the scheme will be achieved by performing the following major activities for MSMEs through Government of India financial assistance in the manner laid down in these guidelines :

 - (iii) Competition Studies.
 - (iv) Special component for North-Eastern Region.
 - (v) New markets through State/District level local Exhibitions/Trade fairs.
 - (vi) Corporate Governance Practices.
 - (vii) Marketing Hubs.
 - (viii) Reimbursement to ISO 18000/ISO 22000/ISO 27000 certification.

Financial Assistance On Bar Code

FINANCIAL ASSISTANCE ON BAR CODE

The Ministry of Micro, Small & Medium Enterprises (MSME), Govt. of India recognizes the contribution of Micro & Small Enterprises (MSEs) in growth of Indian economy, export promotion and employment generation. In order to enhance the marketing competitiveness of MSEs in domestic as well as international market, Office of Development Commissioner (MSME), Ministry of MSME, provides the financial assistance for reimbursement of 75% of one-time registration fee (Under SSI-MDA Scheme) w.e.f. 1st January, 2002 and 75% of annual recurring fee for first three years (Under NMCP Scheme) w.e.f. 1st June, 2007 paid by MSEs to GS1 India for using of Bar Coding. The work of reimbursement has been decentralized and transferred to field offices i.e. MSME-DIs w.e.f. 1st April, 2009 with a view to ensure speedy & timely and extensive implementation of the scheme.

Bar codes are the series of black lines and white spaces printed on product packages or attached as tags which you would have noticed on consumer products. Information on a product or a consignment like its item code or serial number, expiry date, consignor/consignee etc., can be represented through such bar codes. When these bar codes are scanned using a scanner, it enables instantaneous data capture with 100% accuracy and at great speeds.

Bar Coding can have a significant impact on the success of any enterprise/company and organization. Timely and accurate capture of product information and its communication electronically across the Supply Chain ahead of physical product flow is critical to lowering inventory costs, in accurate sales forecasting & dynamic production scheduling and in product track and trace.

Bar Coding not only facilitates the exchange of information between buyers and sellers, but also provides the potential for better visibility and sharing of information across an entire Supply Chain. Other benefits are :

- Automated data capture with 100% accuracy
- Real time stock management of raw materials and finished goods
- Fast and error free data recording on product/consignment movement
- Easy integration with existing software, if any
- In compliance with growing requirements of leading national markets
- In line with requirements of international retailers
- Also gives international look and feel to products.

GS1 India, an autonomous body under Ministry of Commerce & Industry, Government of India is a solution provider for registration for use of Bar Coding. To become a subscriber of GS1 India, all one has to do is fill up the subscription enquiry or registration form and make the necessary payments as registration fee. Details about registration with GS1 India for use of Bar Coding are available on their website www.gs1india.org
