MAKE IN INDIA: IMPACT

SEPTEMBER 2016

In just over a year, Make in India has become a rallying cry for India's innumerable stakeholders and partners. This global movement has been powered by an in-depth overhaul of processes and policies, which in turn was made possible by the hard work of thousands of government and private sector agencies. In a remarkably short space of time, this ambitious effort has yielded significant dividends. There has been an unprecedented increase in confidence, collaboration and investment. This publication presents detailed company-wise data that reveals the metrics behind the movement. Before the reader discovers how far we have progressed, it is worth reflecting briefly on how this journey began.

The Make in India program has been built on layers of collaborative effort. DIPP invited participation from Union Ministers, Secretaries to the Government of India, state governments, industry leaders, and various knowledge partners – and participate they did. These exercises resulted in a road map for the single largest manufacturing initiative undertaken by a nation in recent history. They also demonstrated the transformational power of public-private partnership, and became a hallmark of the Make in India program. Once the road map was in place, the program began to accelerate. The outdated frameworks of the past were rapidly dismantled and replaced with a transparent and user-friendly system that helped drive investment, foster innovation, develop skills, protect IP and build best-in-class manufacturing infrastructure. The most striking indicator of progress was the opening up of key sectors – including Railways, Defence, Insurance and Medical Devices – to dramatically higher levels of Foreign Direct Investment.

An array of measures focused on the ease of doing business in India were also launched during this phase. Brand new, IT-driven application and tracking processes replaced files and red tape, while other measures helped streamline and rationalise licensing rules at the state government level, aligning them with global best practices. Additional initiatives such as Digital India, Smart Cities, Atal Mission for Rejuvenation & Urban Transformation (AMRUT), Sagarmala, Housing for All, Skill India and Startup India laid the foundation for the next wave of investment and growth.

Within sixteen months of launch, the results are beginning to show. India has moved up 12 places in the World Bank's recent Ease of Doing Business Rankings. There have been large-scale commitments made by both domestic as well as foreign investors: FDI in the past 18 months (from June 2014 to January 2016) has increased by approx. 48% as compared to the previous 18-month period. Substantial investment has begun to flow into the electronics, automotive, food processing, textiles and garments, renewable energy and construction sectors. The world's largest democracy is well on its way to becoming the world's most powerful economy. The following pages focus on the specific sources and categories of investment behind these macro indicators, and will help the reader to understand how Make in India is making a difference.

LAUNCHED IN SEPTEMBER 2014, MAKE IN INDIA IS A MAJOR NATIONAL INITIATIVE, DESIGNED TO FACILITATE INVESTMENT, FOSTER INNOVATION, ENHANCE SKILL DEVELOPMENT, PROTECT INTELLECTUAL PROPERTY AND BUILD BEST-IN-CLASS MANUFACTURING INFRASTRUCTURE. **THERE'S NEVER BEEN A BETTER TIME TO MAKE IN INDIA.**

GENERAL MOTORS

COUNTRY: USA

INVESTMENT AMOUNT: USD 1,000 MILLION

COMPANY PROFILE: An American multinational corporation headquartered in Detroit, Michigan that designs, manufactures, markets and distributes vehicles and vehicle parts as well as sells financial services, GM has been in India since 1996 and has invested around USD one billion.

INVESTMENT PLANS IN INDIA: GM plans to invest USD 1 billion in India to turn India into a global auto manufacturing and export hub. The company is to launch 10 new models from the Chevrolet family in the next five years in a push to double its market share by 2020. General Motor's investment and growth plans could add 12,000 new jobs to GM India and its suppliers. They will strengthen their newer Talegaon manufacturing site, which will become an export hub. GM is boosting production capacity at that facility to 220, 000 vehicles from 130, 000 by 2025.

BAJAJ AUTO

COUNTRY: INDIA

INVESTMENT AMOUNT: USD 86.5 MILLION

COMPANY PROFILE: Founded in 1926, Bajaj Auto Limited is a part of the Bajaj Group and the world's sixth-largest manufacturer of motorcycles and the fourth-largest in India. It has plants in Chakan (Pune), Waluj (near Aurangabad) and Pantnagar in Uttarakhand. The oldest plant at Akurdi (Pune) now houses the R&D centre 'Ahead'.

INVESTMENT PLANS IN INDIA: Bajaj Auto plans to invest USD 86.5 million for launching new products, taking its share to 25% from 20%, in the Indian motorcycle market. Further, Bajaj Auto plans to increase the capacity of its Aurangabad plant from 2.7 million to 3 million units per annum. Capacity enhancement of at least 50% is also being undertaken at the Chakan plant.

MRF LIMITED

COUNTRY: INDIA

INVESTMENT AMOUNT: USD 1,876 MILLION

COMPANY PROFILE: Madras Rubber Factory Limited (MRF) is the largest manufacturer of tyres in India, headquartered in Chennai, India. The company manufactures rubber products including tyres, treads, tubes and conveyor belts, paints and toys. The company is present in 65 countries with tyres rolling out of six inter-dependent facilities built across 450 acres, 3000 strong dealer networks and 180 different offices.

INVESTMENT PLANS IN INDIA: MRF is planning to invest USD 600 million to set up a new plant to ramp up production. It has also committed to invest USD 676 million as a part of its expansion plan in its plants at Perambalur and Arakkonam in Tamil Nadu over a period of seven years. Further, MRF is planning to expand its capacity, in existing facilities including Hyderabad, Trichy and Goa, with an investment of USD 600 million over the next three years.

APOLLO TYRES

COUNTRY: INDIA

INVESTMENT AMOUNT: USD 238 MILLION

COMPANY PROFILE: Founded in 1972, with its first plant in Thrissur, Kerala, Apollo Tyres Ltd is the world's seventeenth largest tyre manufacturer. The company has manufacturing units in India, Netherlands and Hungary. It has a network of over 4,000 dealerships in India, of which over 2,500 are exclusive outlets.

INVESTMENT PLANS IN INDIA: Apollo Tyres Ltd will invest additional USD 178 million for expanding the radial tyre capacity at its Chennai plant from the planned 6,000 tyres per day to 12,000 tyres per day. The Chennai facility, along with the Baroda plant, exports around 1, 00, 000 tyres in a month. Apollo Tyres is reportedly planning to invest USD 60 million for expanding its off-highway tyres manufacturing capacity at Kalamassery plant in Kerala. The company plans to raise off-highway tyres capacity from 30 tonnes to 110 tonnes over the next 18-24 months.

VOLVO INDIA

COUNTRY: SWEDEN

INVESTMENT AMOUNT: USD 144 MILLION

COMPANY PROFILE: Volvo provides transportation related products and services. Volvo Buses manufacturing facility has been in Bengaluru, India for 10 years with a product range of buses, coaches and chassis. The company has already invested close to USD 148.26 million over the last decade. Volvo has an overall profile of a complete transport solutions provider, which gives it the ability to configure products according to the Indian market.

INVESTMENT PLANS IN INDIA: With an additional investment of USD 144 million, Volvo India Ltd plans to expand its Hoskote plant, which will generate employment for 2,125 more people. The plant currently produces 1,500 buses per annum and will focus on expansion and export buses to other countries.

CEAT

COUNTRY: INDIA

INVESTMENT AMOUNT: USD 59 MILLION

COMPANY PROFILE: CEAT, the flagship company of RPG Enterprises, was established in 1958 and is one of India's leading tyre manufacturers with a widespread presence in global markets, with a capacity of over 95,000 tyres per day. CEAT offers tyres to all segments and manufactures radials for heavy-duty trucks and buses, light commercial vehicles, earthmovers, forklifts, tractors, trailers, cars, motorcycles and scooters as well as auto-rickshaws.

INVESTMENT PLANS IN INDIA: CEAT plans to invest USD 59 million in the first phase to set up Tyre Plant Project at Butibori, Nagpur. The plant is expected to manufacture 1.2 million tyres annually.

MERCEDES-BENZ INDIA

COUNTRY: GERMANY

INVESTMENT AMOUNT: N.A.

COMPANY PROFILE: Mercedes-Benz India Pvt. Ltd is a wholly-owned subsidiary of the German Daimler AG founded in 1994, with headquarters in Pune, Maharashtra, India. Mercedes is an established luxury automobile brand and has presence worldwide. The company also manufactures buses, coaches and trucks.

INVESTMENT PLANS IN INDIA: Mercedes Benz India inaugurated its second manufacturing facility in Chakan in July 2015, which shall double the plant capacity to 20,000 units per annum. The total investment in the manufacturing facility now stands over USD 148 million since inception.

The company has planned to undertake greater localization of its components - for or its new model C220 CDI, the localization was increased to 60%. In addition, Mercedes will also manufacture luxury buses in India for likely export to Africa and South East Asian markets. The trials for the same are on roll and exports are expected to start next update year.

DAIMLER-BENZ

COUNTRY: GERMANY

INVESTMENT AMOUNT: N.A.

COMPANY PROFILE: Daimler-Benz AG was a German manufacturer of automobiles, motor vehicles, and internal combustion engines founded in 1926. Located in Chennai, Daimler India Commercial Vehicles Pvt. Ltd. is a subsidiary of the German Daimler AG and started production in June 2012.

INVESTMENT PLANS IN INDIA: Daimler India Commercial Vehicles Pvt. Ltd. (DICV), a 100% wholly-owned subsidiary of Daimler AG, Stuttgart, Germany, announced the inauguration of its new bus manufacturing facility in May 2015 in Oragadam and unveiled its second wave of products – BharatBenz and Mercedes-Benz buses as well as a new range of new BharatBenz high-power engine trucks and BharatBenz heavy-duty tractors. The new plant will initially have capacity to manufacture 1,500 buses, which can be increased to 4,000 units and shall generate an additional 300 jobs. The plant shall manufacture front-engine Bharat Benz buses and premium Mercedes-Benz rear-engine buses for inter-city operations.

BMW GROUP

COUNTRY: GERMANY

INVESTMENT AMOUNT: N.A.

COMPANY PROFILE: The BMW Group – one of Germany’s largest industrial companies – is also one of the most successful car and motorcycle manufacturers in the world. With BMW, MINI and Rolls Royce, the BMW Group owns three of the strongest premium brands in the automobile industry. In addition to its strong position in the motorcycles market with the BMW brand, the BMW Group also offers a successful range of financial services. BMW India Pvt. Ltd is a wholly-owned subsidiary of the BMW Group founded in 2006, with headquarters in Gurgaon, Haryana. BMW India has its own manufacturing facility at Chennai.

INVESTMENT PLANS IN INDIA: BMW has decided to increase its localization to 50%. BMW has already signed deals with approximately 20 companies who supply its components. BMW will source door panels and wiring harnesses, exhaust systems, air conditioning and cooling modules, and seats from local Indian companies. Up to eight car models can be locally produced on two assembly lines at BMW plant in Chennai.

TVS MOTORS COMPANY

COUNTRY: INDIA

INVESTMENT AMOUNT: USD 120 MILLION

COMPANY PROFILE: TVS Motor Company is the third largest two-wheeler manufacturer in India and is among the top ten manufacturers in the world. Established in 1979 in Chennai, Tamil Nadu, it is the flagship company of the TVS Group. With presence in more than 60 countries across the globe, TVS is the second-largest exporter of two-wheelers and three-wheelers from India. The company has grown to be a strong brand name in Asia, Latin America and Africa with popular products in the two and three-wheeler segments.

INVESTMENT PLANS IN INDIA: TVS Motor and Sundaram Clayton together are planning to invest around USD 120 million in Tamil Nadu. TVS Motors has a total of four manufacturing facilities, Three in India (Tamil Nadu, Himachal Pradesh, Karnataka), while one is situated in Indonesia. TVS Company plans to expand total two-wheeler manufacturing capacity to around 3-3.2 million units from the current 2.8 million units a year. The three-wheeler capacity will increase to 150 thousand units from 100 thousand units currently. Expansion will come mainly from the Himachal Pradesh and Mysore plants.

INTERNATIONAL TRACTORS LTD.

COUNTRY: INDIA

INVESTMENT AMOUNT: USD 75 MILLION

COMPANY PROFILE: Incorporated in 1969, International Tractors Limited is the manufacturer of Sonalika Farm Equipment and Tractors under the brand name 'Sonalika'. The group is among the top three tractor manufacturers of India and provides a complete product line including tractors, multi-utility vehicles, engines, farm machinery attachments, diesel gensets, auto components and pick and carry cranes.

INVESTMENT PLANS IN INDIA: The company invested USD 75 million for setting up its new Hoshiarpur plant in Punjab with the capacity to manufacture 0.2 million tractors per annum. The Hoshiarpur plant was unveiled in November 2015 and contains a single production line for all variants and models as well as an engine assembly line for 500 engines/day.

PIAGGIO GROUP

COUNTRY: ITALY

INVESTMENT AMOUNT: USD 8 MILLION

COMPANY PROFILE: The Piaggio Group, headquartered in Pontedera, Pisa, Italy, is the largest European manufacturer of two-wheel motor vehicles and one of the world leaders in its sector. The company's product range includes scooters, mopeds and motorcycles from 50cc to 1,400cc, three- and four-wheeler light transport and commercial vehicles.

HILLIARD ENERGY

COUNTRY: USA

INVESTMENT AMOUNT: USD 600 MILLION

COMPANY PROFILE: The Hilliard Companies, based in USA is an established developer of utility grade energy projects. Since its founding, Hilliard has grown from its oil and gas roots to a multi-faceted service company that has offered land management and land acquisition services to generating utilities and energy developers. It has become a developer of renewable energy projects and large scale transmission lines.

INVESTMENT PLANS IN INDIA: Hilliard Energy plans to invest USD 600 million to set up 500 MW solar and 150 MW wind energy projects in the Indian state of Andhra Pradesh. The company plans to install 1.2 GW of solar in India over the next five years.

RENEW POWER

COUNTRY: INDIA

INVESTMENT AMOUNT: USD 265 MILLION

COMPANY PROFILE: ReNew Power Ventures Pvt. Ltd, an India-based independent power producer company is generating close to 595 MW of installed and operational clean energy capacity through wind across the states of Maharashtra, Rajasthan, Karnataka and Gujarat. Primarily a wholesale power generator, ReNew Power sells the output to state electricity boards and large industrial companies.

INVESTMENT PLANS IN INDIA: ReNew Power has tied up with South Korea's Hanwha to co-invest in two solar projects in Telangana. ReNew has also announced a joint venture deal with Chinese firm Hareon Solar for a 72 MW project in Andhra Pradesh.

JAKSON POWER

COUNTRY: INDIA

INVESTMENT AMOUNT: USD 60 MILLION

COMPANY PROFILE: Jakson Power Solutions is a diversified group with multiple business interests. Founded in 1947, the group has grown to a USD 300 million enterprise today. Jakson employs over 1,800 professionals and has 6 manufacturing facilities. The group has diverse business activities ranging from manufacturing of power equipment, solar power (EPC and IPP) to hospitality.

INVESTMENT PLANS IN INDIA: Jakson is investing around USD 60 million in setting up two solar power plants in Uttar Pradesh.

JA SOLAR

COUNTRY: CHINA

INVESTMENT AMOUNT: USD 200 MILLION

COMPANY PROFILE: JA Solar Holdings Co., Ltd is the world's leading manufacturer of high-performance solar power products for residential, commercial and utility-scale power generation. The company was founded in 2005 and is based in Shanghai. In a short span, it has been able to establish itself as a pioneer in high power solar power products.

INVESTMENT PLANS IN INDIA: JA Solar has announced plans to enter the Indian market. The company has signed an agreement with India's Essel Group to set up a manufacturing facility for solar cells and modules. The facility will have an annual production capacity of 500 MW solar cells and modules every year. The joint venture will invest an estimated USD 200 million in the manufacturing plant.

SB ENERGY

COUNTRY: JAPAN

INVESTMENT AMOUNT: USD 20,000 MILLION

COMPANY PROFILE: SB Energy, (formerly known as SBG Cleantech), is a three-way joint venture between Japan headquartered SoftBank Group Corp., Bharti Enterprises Limited and Taiwan-based Foxconn Technology Group.

INVESTMENT PLANS IN INDIA: SB Energy will invest about USD 20 billion over the next 10 years to generate 20 GW of solar power and manufacture solar power equipment in India.

SB Energy has won a bid to develop a 350 MW solar plant under the Phase-II, Batch-II, Tranche-I of National Solar Mission at a 25-year tariff of INR 4.63/ kWh.

ADANI GROUP

COUNTRY: INDIA

INVESTMENT AMOUNT: USD 6,000 MILLION

COMPANY PROFILE: Adani Group is a diversified Indian conglomerate with focus on infrastructure development. The company's business spans across segments like oil and gas exploration, coal mining and trading, multi-modal logistics, ports, power generation and gas distribution.

INVESTMENT PLANS IN INDIA: The Adani Group has signed a joint venture with Rajasthan Renewable Energy Corporation to set up India's largest solar power with a capacity of 10 GW. Adani group is expected to invest nearly USD 6,000 million in the state and install solar plants in a phased manner. The first phase of 5 GW plant will be developed by December 2019 and the rest in the subsequent five years.

MYTRAH GROUP

COUNTRY: JAPAN

INVESTMENT AMOUNT: USD 185 MILLION

COMPANY PROFILE: Mytrah Group is headquartered in London, UK and has interests in providing sustainable energy solutions globally. It's India-focused subsidiary, Mytrah Energy Limited (MEL) is engaged in developing, owning and operating wind energy assets. The company operations include generation and sale of electricity. MEL has built a portfolio of over 500 MW of operating wind plants in India. Its assets are spread across ten wind farms in six states, which include Rajasthan, Gujarat, Maharashtra, Andhra Pradesh, Karnataka and Tamil Nadu.

INVESTMENT PLANS IN INDIA: The company has a fully funded project pipeline of 250 MW. Over the next five to seven years, the company has pledged to add 5 GW of wind energy capacity and 2 GW of solar power capacity.

Mytrah has secured debt funding worth \$ 175 million from the Asian Development Bank. The funding will be used for the implementation of wind and solar power projects.

SANY

COUNTRY: CHINA

INVESTMENT AMOUNT: USD 7,800 MILLION

COMPANY PROFILE: SANY is a Chinese multinational heavy machinery manufacturing company headquartered in Changsha. It is the fifth largest heavy equipment manufacturer in the world, and the first in its industry in China. SANY's product offerings include concrete machinery, excavator, hoisting machinery, pile driving machinery, road construction machinery, port machinery, and wind turbines. SANY Group owns four overseas production factories in America, Germany, India and Brazil and has a sales turnover of USD 4.7 billion.

INVESTMENT PLANS IN INDIA: SANY Group has announced plans to invest USD 3 billion in developing renewable energy assets in India.
