- 1.2 The support for integrated cold chain and value addition infrastructure shall be applicable only to “B”, “C” and “D” category blocks. Maximum of 10 projects shall be eligible to avail this incentive during the policy period.
- 1.3 The scheme covers creation of infrastructure facility along with the entire supply chain viz. pre-cooling, weighing, sorting, grading, waxing facilities at farm level, multi-product/ multi temperature cold storage, CA storage, packing facility, IQF, blast freezing in the distribution hub and reefer vans, mobile cooling units for facilitating distribution of horticulture, organic produce, marine, dairy, meat and poultry etc. The scheme allows flexibility in project planning with special emphasis on creation of cold chain infrastructure at farm level.

2. Objective of the Scheme

The objective of the scheme is to provide integrated cold chain, preservation and value addition infrastructure facilities without any break, from the farm gate to the consumer in order to reduce post-harvest losses of horticulture and non-horticulture agri-produce. This will enable linking groups of producers to processors and market through a well-equipped supply chain and cold chain, thereby ensuring remunerative prices to farmers and year-round availability of food products to consumers.

3. Commencement and Applicability: The Scheme shall commence with effect from 04.06.2018 and shall remain in operation for a period of 5 years. The applicants eligible under the **scheme and commence commercial production** between 04.06.2018 and date of notification of the scheme can apply to Office of Directorate of Industries and Commerce within 3 months of the notification of the scheme.
