Project Profile on Plaster Boards (Roofing)

Introduction

Plaster Boards are used for interior roof decoration as well as walls for better artistic look in theatres, hotels, restaurants, sweet stalls, luxury jewellery, conference halls etc. They are in good demand specially in towns and cities.

Market Potential: The market of this item depends on growth in the construction sector. Construction sector has been booming in the State and there is a high level of activity in the commercial segment. Plaster boards not only enhance the interiors of commercial complexes, but also serves as a cost effective means of partitioning work spaces and spruching up ceilings. They also add to the acoustic characteristics of the rooms. There is increased acceptance for the product in the market, but bulk buyers have to be identified, especially in the contracting sections so that a captive market is assured.

Raw material required: Plaster of Paris, fibers, lubricating oil etc.
