

# **Rajasthan MSME Policy 2015**

## **1. Preamble**

Micro, Small and Medium Enterprises (MSMEs) cater to the vital needs of the economy in terms of their two specific roles, i.e. as a support base for large industry and as a stand-alone provider of goods and services. In fact, they form the backbone of the industrial sector in terms of numbers and provide the largest share of employment after agriculture.

Rajasthan is the largest State in India. Strategically located between the northern and western growth hubs in India, it has 40% of the land falling within the ambit of the upcoming Delhi-Mumbai Industrial Corridor (DMIC). Rajasthan is a remarkably peaceful and politically stable State, offering a set of unique opportunities for profitable investment in many sectors.

The State is endowed with abundant physical resources, rich mineral wealth, agro surplus, world-renowned handicrafts and handloom and outstanding skills. These provide ample opportunities for manufacturing, beneficiation, processing activities and services in the MSME sector, which has been the strength of the State. This sector plays a crucial role in the process of economic development by value addition, employment generation, equitable distribution of income, removal of regional disparities, as well as through export earnings. However, there remains a vast untapped potential which, through proper harnessing and nurturing, can be translated into huge gainful employment generation and many fold increase in contribution to the State's Gross Domestic Production.
