

Scheme of setting up of Urban Haats (Revised Scheme)

Project

*VISHA
(6)*

The proposal envisages setting up of Urban Haats at prime locations in the country. The participating craftpersons / weavers will sell handicrafts / handlooms products directly to the customers. This will provide adequate direct marketing facilities to the craftpersons / weavers and eliminate middle agencies. Another feature of the Haat is that there will be adequate stall selling authentic Indian cuisines of various regions in the country by rotation. The Food & Craft Bazar will provide leisure and recreational facilities for both Domestic and International tourists in line with Dilli Haat which has reached International status in just three years of its existence. It is proposed to set up 20 Haats in the metropolitan cities in the country during the Xth Five Year Plan. The scheme will be implemented through State Handicrafts / Handlooms Development Corporations / Tourism Development Corporations / NGO's with sufficient funds resources.

Locations

The Urban Haat will be set up at strategic locations in consultation with concerned State Governments. The area should be developed providing the ambience suited to such a Haat which presupposes creation of green belts in and around the Haat with sufficient open spaces. The area of the Haat may vary depending on availability of land. It may however not be less than 18000 sq. meters. The responsibility of providing developed land at a suitable locations will be of the concerned State / Implementing agencies.

Design Concept

The area will be developed as a part where, constructed area is limited to around 10% of the total area i.e. 18000 sq. meters. The shops / stalls will be set up on platforms which act as a link in the Haat Design. The courtyards in between the shops will be paved in stone interspersed with grass to retain visual softness. The entire complex will be designed to keep a low profile in harmony with the surrounding environment and stalls themselves will be constructed to reflect local construction culture.

The complex will also have tensile structures for cultural programmes ; performing arts, exhibitions etc. The entire area will be extensively landscaped to provide a conducive environment for recreation and leisure.

It is planned to have 40-50 stalls where the craftpersons/weavers will sell their wares directly to the buyers. The stalls will be available on hire on day to day basis. The food side of the Haat will have properly serviced 5-7 stalls with plumbings, counters and space to accommodate

kitchen equipment.

There will also be a provisions of 2 exhibitions halls / museums in the haat to cater to the requirement of organizing STATE DAYS and other exhibitions. Provision for dormitory for outstation craftpersons / weavers may also be made.

Cost estimates of the project

The Project is estimated to cost Rs. 195.70 lakh as follows :

Sl. No.	Item	(Rs. In Lakh) Proposed estimated cost
1.	Site Development	30.00
2.	Building	90.00
